

MUDr. Monika Drakulová

In 1987, she graduated from the Faculty of Medicine Comenius University in Bratislava in the field of General Medicine. She gradually expanded her education in several areas over the years 1992 – 2009: she was board-certified in Pediatrics, Hematology and Transfusiology, Health Finance and Management, and Laboratory Medicine.

Since 1987, she worked at the Children's Clinic ILF in Bratislava at the hematological department for children. Since 1998, she worked at the University Hospital of the academician L. Dérer and later at the Department of Laboratory Medicine at the same University.

Since 2005, she has been working in the company synlab slovakia s.r.o. as the guarantor for Hematology and Transfusiology holding the position of Deputy Medical Director. In 2010, she became Managing Director in synlab slovakia s.r.o. Since 2013, she has been Chairman of the Scientific Board of synlab slovakia and synlab czech. Since 2017, she has been managing a network of outpatient clinics and counseling centres, having been working as a physician in the hematological outpatient office focused on disorders of hemostasis and anemic syndrome.
