

### **MUDr. Martin Alföldi, PhD**

In 2018, dr. Alföldi graduated with distinction from the Comenius University, Faculty of Medicine in the field of General Medicine and was awarded the academic commendation of the Rector. Since 2018, he has been working at the 2nd Clinic of Obstetrics and Gynaecology, Faculty of Medicine, Comenius University and at the University Hospital in Bratislava as a house officer with inclusion in full-time specialization and postgraduate studies. His area of professional scientific interest is, especially, the issue of previable rupture of membranes, intra-amniotic inflammation in association with individual clinical forms of preterm delivery, multiple pregnancies, and foetal anaemia. In July 2022, dr. Alföldi successfully completed his doctoral studies by defending his dissertation on the topic of Active Management of Previably Rupture of Membranes, and earned a PhD title. So far, he is the author of several professional publications in domestic and foreign reviewed journals.
