

Christos A. Venetis, MD, MSc (Res), MSc (HCM), PhD, FRANZCOG, CCSST ReproMed (EBCOG/ESHRE)

Dr. Venetis is a Consultant Gynaecologist and Fertility Specialist. He is also an Assistant Professor at the Faculty of Health Sciences, Aristotle University of Thessaloniki, Greece and a Visiting Senior Research Fellow at the Faculty of Medicine & Health, University of New South Wales, Sydney, Australia. Dr. Venetis is also Global Head of Clinical Research for Virtus Health, one of the largest organizations of ART services globally.

His research has attracted more than 1.5 million dollars in funding in the last 5 years.

He was named in the top 1% of most cited researchers worldwide in Obstetrics and Reproductive Medicine for 2021. He is an author of more than 115 publications in international scientific journals (h-index: 41, more than 7500 citations, Google Scholar), of several chapters in books and has been an invited speaker in more than 180 international scientific meetings. He has co-edited a textbook on the evidence-based management of Recurrent Implantation Failure.

For many years he has been a passionate advocate of evidence-based medicine in his field and has been serving as a member of the Editorial Board of Human Reproduction since 2008. He is also currently a Section Editor for RBM Online, for Reproductive Biology & Endocrinology, an Associate Editor for Reproductive Sciences and for Fertility & Reproduction.

His research interests include ovarian stimulation, endometrial receptivity, reproductive epidemiology, and the health of mothers and babies after ART. He is currently leading a few research projects in these fields both nationally and internationally and is mentoring junior colleagues.
